

ROU MATERIAAL was born in Ravenna, Italy, in 2013.

Rou Materiaal designs and manufactures in **Italy**, wooden sculptures **handmade** in unique using domestic **raw materials**, natural, treated with resin, sand or other techniques and handpainted linen art fabrics in unique pieces.

The most peculiar technique of Rou Materiaal is the use of resin obtained in unusual and technically "wrong" ways, in order to achieve imperfect and random results with a unique flair.

The name "ROU Materiaal" communicates the research of very ancient material, through its sound and linguistic origin; it also suggests a contemporary minimalist influence, a fusion between the language of African origin and the Northern contemporary world.

S C U L P T U R E _ T A B L E S

Rou Materiaal designs and manufactures in Italy massive wooden sculptures in unique pieces using domestic raw materials,

natural, treated with resin, sand or other techniques.

The **ROU Materiaal sculpture - tables** come from **ROU Materiaal sculptures** that in some cases can be used also in a functional way. Art and design merge in a unique work. The woods are treated in such a way as to combine the use of techniques that enhance veins or natural imperfections with others that give a more

contemporary texture, such as fire, sand, gilding and resins.

Sculpture tables can be customized, legs and tops can be changed.

Our domestic sculptures can become sculpture-tables and legs can be customized.

They are made of wood of secular Italian felled trees because sick or dead standing; the wood is treated so as to mix the use of techniques which enhance natural imperfections or veins, with the use of other ones like fire, sands, or gilding, for obtaining a more contemporary texture.

Our domestic sculptures represent the very beginning of our story and brand.

Fully made in Italy. One of a kind.

ART FABRICS

Our art fabrics are handmade in unique pieces, in Italy. We paint Italian linen canvas using ancient techniques typical of our region (Emilia Romagna) reinterpreted in a contemporary way. During this process we sometimes use also ancient molds. Each piece is identified with a name and collection.

Our art fabrics can be used as tapestry, furnishing art-fabrics, art towels and raw material forcustom-fashion.
